PRINCE2 (an acronym for **P**ROjects **I**N a **C**ontrolled **E**nvironments) is a de facto process-based method for effective **project management**.

PRINCE2 can be tailored and applied to any project regardless of project scale, type, organization, geography or culture.

This document is...

Useful

Not useful

PRINCE2's formal recognition of responsibilities within a project, together with its focus on what a project is to deliver (the why, when and for whom) provides projects with:

- A common, consistent approach
- A controlled and organized start, middle and end
- Regular reviews of progress against plan
- Assurance that the project continues to have a business justification
- Flexible decision points
- Management control of any deviations from the plan

This document is...

👍 Useful

👎 Not useful

- The involvement of management and stakeholders at the right time and place during the project
- Good communication channels between the project, project management, and the rest of the organisation
- A means of capturing and sharing lessons learned
- A route to increasing the project management skills and competences of the organisation's staff at all levels

This document is...

👍 Useful

👎 Not useful

Following two examinations applicable to PRINCE2:

Foundation examination

Practitioner examination

This document is...

Useful

Not useful

The Foundation is the first of the two PRINCE2 Examinations you are required to pass to become a PRINCE2 Practitioner.

This is a basic level exam that aims to measure whether a candidate would be able to act as an informed member of a project management team using the PRINCE2 method within a project environment supporting PRINCE2.

The candidate should have good understanding of

Four Integrated Elements of Prince2 - Principles, Processes, Themes and the Project Environment

Prince2 Project organization structure, key roles and the responsibilities associated with the roles

Purpose and Contents of the major management products
